**General**

When fixed or radial stackers are utilized for stock-piling of dense graded, fine, coarse, and open-graded aggregate, the maximum height of material deposited by either type of stacker shall be 10 feet before the pile is leveled. Each layer of the material in the stockpile will be constructed by this method.

If Sand is to be removed prior to the crushing operation, it shall be screened in a fashion to produce 2NS sand and shall be placed in a separate stockpile. Such material shall become the property of the Crawford County Road Commission. Cost of screening and stockpiling shall be incidental to gravel production.

If stockpile is determined by the Road Commission to be segregated, it will be unacceptable for use.

Mineral Permits for the production of material on State of Michigan owned property will be procured (if possible) by the Crawford County Road Commission prior to production. Lovells Pit is owned and operated by the Crawford County Road Commission.

Bidder shall notify the Road Commission a min. of 5 days prior to commencing production. It is the intent of the Road Commission to supply inspection during production of aggregate.

Contractor shall provide Certificate of Insurance prior to commencing production. Certificate shall include:

- 1) Board of County Road Commissioners **AND** The Crawford County Road Commission named as additional insured to all coverage, 2) General liability- \$500,000 each occurrence, 3) Automotive liability- \$500,000 each occurrence, and 4) Worker's compensation- statutory limits.
